

ENVIRONMENTAL PEACEBUILDING AT CI

Lina Barrera, Senior Director for International Policy
Tuesday, December 13 ,2016

OUR MISSION

Building upon a strong foundation of science, partnership and field demonstration, CI empowers societies to responsibly and sustainably care for nature, our global biodiversity, for the well being of humanity.

A high-angle photograph of a woman with dark hair tied back, wearing a teal t-shirt and a red patterned sarong, sitting on a dirt floor. She is peeling a sweet potato with a knife, with shavings scattered around her. To her left is a woven basket filled with peeled, white sweet potatoes. To her right is a large pile of unpeeled, dark brown sweet potatoes. The text 'What is Environmental Peacebuilding?' is overlaid in large, bold, yellow-green letters on the right side of the image.

What is Environmental Peacebuilding?

A photograph of a person fishing on a rocky shore at sunset. The person is standing on a narrow strip of land, holding a fishing rod. The water is a deep blue, and the sky is a mix of orange and blue. The foreground is filled with dark, jagged rocks.

**BRINGING PEOPLE TOGETHER
around natural resources and using
cooperative efforts to manage those
resources to transform insecurities and
create more peaceful relations between
parties in dispute.**
